PREMIUM CLUMPING CAT LITTER

NATURAL CAT LITTER

OUR PROMISE TO YOU...

Who We Are

Welcome to Classy Pet LLC, where we believe that luxury and sustainability can coexist harmoniously in every aspect of your cat's life. Located in the heart of New Jersey, USA, our brand is dedicated to providing premium, natural cat litter made from the finest sodium bentonite.

We take pride in our eco-friendly approach. Classy Pet LLC is committed to sustainable practices, from sourcing raw materials to our production processes. We believe in protecting the environment while providing a product that you and your cat can trust.

Why Choose Us

Our cat litter is more than just a necessity—it's a statement of care and luxury. Sodium Mineral, known for its exceptional absorbent and clumping properties, is the cornerstone of our product.

At Classy Pet, we are dedicated to enhancing the well-being of cats and their owners by providing premium quality, all-natural cat litter. We strive to create a cleaner, safer, and more sustainable environment, ensuring that every product we offer is not only effective but also luxurious.

Our commitment to excellence, innovation, and customer satisfaction drives us to continuously improve our products, making life better for our feline friends and their families. Experience the ultimate in luxury and comfort with Classy Pet, where we elevate the standard of cat care.

Why Sodium Bentonite?

Sodium bentonite is a popular choice for cat litter due to its exceptional clumping ability, odor control, and absorption. This article explores its performance compared to alternatives, environmental concerns, and health risks. It also answers common questions about its use in multi-cat households, cost-effectiveness, and eco-friendly alternatives. Discover why sodium bentonite remains a top choice for cat owners worldwide.

Sodium bentonite, a naturally occurring clay mineral, has become a key component in the manufacturing of clumping cat litter. This article explores the use of sodium bentonite in cat litter, its benefits, safety considerations, and its environmental impact. Through research-backed data and an understanding of the material's properties, we will provide a comprehensive overview of its role in the pet care industry.

Discover Our Scents

High-quality cat litter is essential for your cat's health and happiness. The right cat litter can prevent health issues, reduce bad odors, and provide a comfortable environment for your feline friend.

Classy Pet's natural ingredients, superior odor control, and dust-free formulas ensure your cat's well-being while being kind to the environment. Choosing the right cat litter not only makes a difference in your cat's daily comfort but also contributes to a cleaner, greener planet.

Why Choose Classy Pet?

Classy Pet is dedicated to providing natural, healthy, and environmentally friendly cat litter. Our commitment to quality ensures your cat's health and happiness while bringing the purity of nature into your home. Our 100% natural cat litter is crafted from the finest bentonite minerals, ensuring a safe, chemical-free environment for your beloved pet.

PH	9-9,80	9-9,80
Dust	99,9% Dust Free	99,5% Dust Free
Moisture	Max %10	Max %10

Activated Carbon

Activated carbon works as a powerful natural deodorizer, trapping and neutralizing unpleasant odors like ammonia and feces almost instantly. It keeps the air around your home fresh while also helping to reduce the spread of bacteria inside the litter box. Sodium bentonite, on the other hand, is known for its exceptional clumping ability.

Lavender - Activated Carbon

Lavender Scent Cat Litter contains bentonite with active carbon particles and lavender scent. Natural sodium bentonite with lavender scent provides exceptional odor control and clumping performance. Classy Pet, with its magnificent lavender scent, creates a peaceful atmosphere. Our dust-free litter absorbs liquids well, making it ideal for a clean and serene litter box experience.

Max Odor Control

The powerful natural and bentonite minerals in our cat litter trap and neutralize odors, ensuring your home stays fresh.

Strong Clumping

Our litter forms strong, tight clumps for easy scooping, thanks to the superior clumping properties of natural and bentonite minerals.

High Absorption

With its high absorption capacity, this litter quickly soaks up moisture, keeping the litter box dry and comfortable for your cat.

Long Lasting

Designed to last longer, our cat litter requires fewer changes, providing both convenience and value. So you can give your back a break.

99.9% Dust-Free

Enjoy a cleaner environment with our 99.9% dust-free formula, reducing tracking and improving air quality for you and your cat.

Sodium Bentonite

Our cat litter features premium sodium bentonite minerals, known for their exceptional absorbency and clumping ability.

Private Label Packaging

We produce clay based clumping cat litter made of Sodium Bentonite. Sodium Bentonite is a self-clumping mineral. Its 100% natural without any additives. It performs strong clumps and offers maximum odour control. Our scent-free clay is truly odourless and eliminates ammonia odours without using fragrance as a masking agent.

We provide private label services for cat litter productions. Our experience in this sector enables us to guide you, ensuring that your vision and finished product is commercially viable. Whether its in plastic bag, paper bag or carton box, you name it we produce it.
